

Instructions on how to export a CBCT scan with Invivo Anatomage software in .inv format:

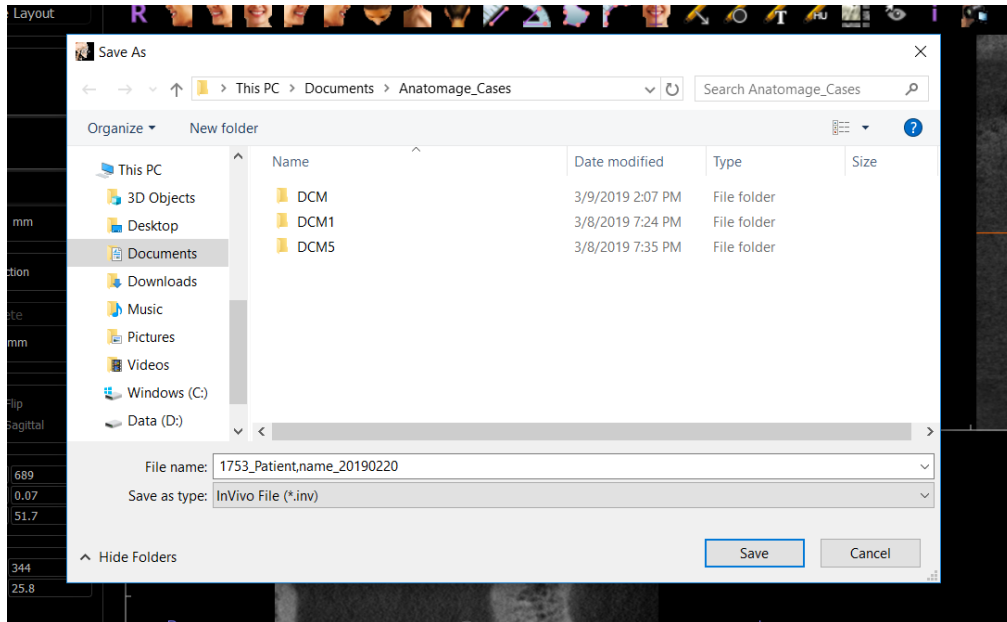

1. Open the CBCT scan you wish to export with Invivo Anatomage software.
2. Click on **“Save As”** (not *Save Project As*).

3. Choose **“Invivo”** and click **OK**.

4. Your file will be saved in documents/anatmage cases under your patient's name.

5. Upload the .inv file to the HIPAA compliant web portal with the required clinical information.
