

Export a CBCT scan from CS Imaging 8

Step 1: Open CSI8. Right click on the scan in the patient's folder, and then click on **"Save As"**.

Step 2: Choose the folder location (desktop) you want to save your scan in. Select **"Compress 1 item."**

If you are using mysecurepractice, please click on ['Create a case'](#) to fill in patient's information.

If you are using hightail, please click on ['hightail upload'](#) to fill in patient's information.
